

FLUSHING PRICE LIST

Definition Cleaning:

”A tank is deemed cleaned when no visible traces or smell of the last product or cleaning agent can be determined in the inspection through the dome lid.”

(Source EFTCO)

7	If aftercleaning or additional effort is necessary, it will be charged by unit (1 minute) as a flat rate:	PG = price group					

All prices in Euro plus the currently valid VAT at 19%. For our current general terms and conditions, see www.curt-richter.de or the enclosed appendix.

Important Information:

After successful cleaning, the driver will receive an ECD (European Cleaning Document). The prices will be according to the position of the dome lid. If the dome lid is not centered on a tank truck, the required cleaning effort will be higher and additional costs will result (not for multi-chamber tank trucks)

Handling:

In order to offer you a fair price, we will always use the higher price group if there is more than one product. We charge by number of dome lids and single-chamber tank containers
